Wendy Helgeson, Village Clerk
Approved:

- Amend Framing Concept 4a as follows: Strategy 4a-5:

Greenville should consider not supporting the development of more than two residential developments at any one time ~~unless the active developments have less than 5% of remaining lots available for building~~. Rezoning of property to residential is not recommended if this ratio isn't met. If support is to be given when the ratio isn't met, the age of ~~active~~ developments and market conditions should be considered. Market studies should be considered to be prepared by the developer. Development agreements should also be considered prior to rezoning approval stipulating the terms of development. See also Policy 9d-3.

- Suggested wording for Amendment to Framing Concept 4a as follows: Strategy 4a-5:

Greenville should consider not supporting the development of more than two residential developments at any one time. Rezoning of property to residential is not recommended if there are more than two residential developments. If support is to be given for more than two developments, the age of developments, market conditions, and neighbor input should be considered. Market studies should ~~be considered to~~ be prepared by the developer. Precedence should be given to areas that do not require the extension of sewer and water services and to areas that do not require the addition of lift stations. Development agreements should also be considered prior to rezoning approval stipulating the terms of development. See also Policy 9d-3.
