The commission suggested that those parcels potentially be used for all single family or high-density single family/senior living. A concern was a single entrance into the R3 development. The commission suggested the rezoning wait because the SF development will exceed the 80-100 lot average set in the Comprehensive Plan.

See attached and below for public comments for the Planning Meeting Monday November 10.

Town of Greenville Planning meeting November 10, 5:00 PM Village Town Hall.

RE: Rezoning of Ebben Farm from School Road to SummerBreeze/Pebble Ridge Unfortunately, I will be out of town on Monday night and not able to make a comment during the Public Comment section of the meeting.

Below are concerns

1. Multi-Family Housing—They are requesting 17.68 acre be rezoned to R-3 Multi-Family Housing They have not presented a plan for what that housing will look like or how many units will be built
2. Drainage—They have said that the northern half of the 72 acres will drain to the north and the southern half of the development will drain to the south toward Pebble Ridge. Where will the water go? Retention ponds?
3. Single family lots—The number of single-family lots and how narrow the lots will be (73 to 75 feet), will make for small houses. Will there be any covenants for the development on the minimum size of a house?

Town Responsibilities

Design Drive—What will the Town do to prevent trucks from the Industrial Park from going thru the new residential development to Hwy 76 Design Drive—will there be speed bumps required on Design Drive to slow traffic from the Industrial Park to Hwy 76 Wunderlich Park—Will the Town build off road parking from Design Drive for the playground Wunderlich Park—The park fees from this development of \$682 per dwelling unit would amount to \$110,000 to \$130,000, depending on the number of apartments. Can this money be designated to improving Wunderlich Park as the nearest park to the development?

Wunderlich Park—When Pebble Ridge Road goes through to Design Drive, what safety precautions will be in place for the entrance to Wunderlich park from Pebble Ridge. It looks to be a blind entry point to traffic coming from the new development.

Subject: November 10th Zoning Meeting

Good morning Mark,

We will be unable to attend Monday's meeting, would you be able to include this email as part of the discussion?

In regards to "Lot 56" being rezoned as R3 our opinion is that ideally the overall zoning should remain as R1. We fully expected that this land would be developed in the future from when we purchased in 2019; however, we did expect that this development would continue to be consistent with the other Savannah Heights subdivisions and in this case R1.

Being zoned R3 would increase traffic substantially on our street and the park that we frequent. Regardless of what traffic control measures are taken a higher population density would cause more traffic and safety concerns.

Thanks,
Joseph and Leslie Koenig

Subject: Parcel Rezoning

Good morning Mark,

I am writing this letter opposing the Rezoning of Parcels 111083205 & 111083300.

Concerning Rezoning of Parcel between Hwy 76 and CB and School Rd and Design Dr. there is 60 acres of undeveloped land that is surrounded on all sides by single family homes. The Developer is attempting for the 3rd time to seek approval from the Greenville Board to rezone to multifamily homes and apartments.

Many reasons why I feel this will be net negative to our community. Increase traffic of "renters" through single family neighborhoods. They are not owners and therefore will not respect our quiet community. Greenville has 200+ new construction homes planned or in development today and adding an additional Multifamily and Apartments into our community will increase the burden of our crowded public schools more than they are today. Class sizes going from 20+ kids to 25-30 kids per teacher. This will also result in a decreased home value to all the surrounding neighborhoods.

Help us Keep Greenville the Family community it is and what we hope to preserve for generations to come.

Thank you,

Adam Foshag

Village of Greenville

Regarding the Rezoning Proposal for Parcels 111083205 + 111083300. I am writing to oppose the plan proposed by the developer.

I Live in Savannah Heights since 2020 and in Greenville since 2014.

The proposal by the Developer to create a 60-acre area for multi-family homes + apartments is in my opinion not a sound one. Surrounding this area on all sides is single family homes with similar lot sizes of 1.33 acres.

Many reasons I believe this to be a Net Negative to Greenville and to our surrounding neighborhoods.

- Savannah Heights is currently developing +100 new Single Family Homes. Greenville has additional Single Family Homes in development as well.
 - o Why land lock multi-family + apartments in the middle of flatlands, no logical reason.
- Increase traffic through quiet communities.
- Temporary Residents, Renters, increase the likelyhood of poor quality of people that would be undesirable to be neighbors.
- Increase the likelyhood of over crowding our Public School System.
- Decreasing property value due to no longer being a quiet single family community.
 - o Which you (Greenville) have continued to increase our valuations for 10+ years now.

Letter opposing the Rezoning

of Parcels

111083205 + 111083300

for meeting of November 10, 2025

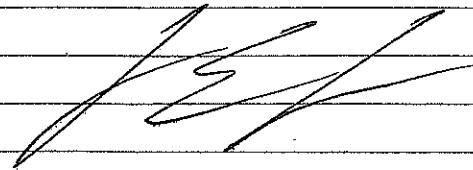

Nov 10, 2025

I could rattle off 100 reasons why I am opposed to this proposal. But it comes down to my sheer disappointment in the Village and Board to entertain such a proposal. You are employed & elected to protect the community. To uphold our values & to create a unified village. The fact that this plan continues to be proposed & we continue to rally against it with no certainty of it being rejected reduces my confidence that our Village is being governed by the appropriate leaders.

I hold each member personally responsible

I am not alone in this. I have not met, talked with, or heard of a single person that is pro multi-family housing and apartments being developed near our neighborhood.

Share on you all for causing this fear & anguish to your residence as we worry that our cherished village will not be the community we hope it will be for our children & generations to come.
